Lesson 1. What's Inside a Computer?

- Motherboard
- RAM
- Disk Drive
- CD/DVD ROM
- Power Supply
- CPU Fan
- Network Card
View CPU info and Memory size:
1. Start->Control Panel->Performance and Maintenance->System
2. See "Computer:"

View Disk size:
1. In the Control Panel, click on "Folders"
2. Right-click on "Local Disk (C:)"->Properties
3. Look at the Capacity. Does the number of bytes match the number of GB?

Lesson 2. Hands on!

Open up a computer, identify parts!
