

TA Grading Notes

Homework 7

Problems 2 (b), 3, and 4 (a), (b), and (c) were graded for a total of 30 points. The homework average was about 65.8% (not counting missing homework). The following is a histogram of the homework grades. The red line is the average, and the blue lines give one standard deviation away from the average.

The average over all homework so far is about 70.4% as given in the red line below:
